**Functions**

- This product is designed with a set of smart 3D mechanical hands, which can move up and down, stretching back and forth, four-wheel driven with muted design.
- The shoulder part is designed with automatic detection and micro adjustment function; body curve and massage points automatic detection, it can automatically adjust the distance of massage hands’ moving back and forth according to the detected body curve and massage points, to make the massage more humanistic and scientific.
- Comfort, ease, ache relief, fast experience, relax, music sync, waist stretch, full air pressure and other specific massage functions.
- Set with two kinds memo massage functions M1 and M2.
- Manually select the upper body massage, three massage position options of overall, partial and fixed position, six massage methods of shoulder grasping, kneading, tapping, shiatsu, kneading & tapping and 3D; five massage speed levels available; under tapping and shiatsu massage status, the width of the massage hands can be adjusted in five levels.
- Arm air massage function (built-in 8 air bags), upper arm air massage function (built-in 4 air bags), with 3 intensity adjustments.
- Lower body air pressure massage function: back air pressure massage function (built-in 4 airbags), buttock air pressure massage (built-in 16 airbags), calf rest air pressure massage function (built-in 36 airbags), with 3 intensity adjustments.
- On upper arm has two grades width adjustment function When you adjust to the last grade, to push into the arm about a gear distance then lose your hand and arm device will automatically reset, and so on in order to adapt to the different Shoulder breadth of users.
- Back heating function, use carbon fiber as infrared heating source.
- The footrest can be extended to suit various heights.
- With slide rail structure on backrest, make a zero-space design to maximally save place.
- Calf rest lifting, backrest lifting and auto lying models adjustment.
- With negative oxygen ionizer on upper arm.
- Intelligent terminal (cell phone or tablet PC) control the massage chair by blue tooth.
- MP3 player function, upper arm built in 3D digital audio.
- Connect the smart device via blue tooth to play music.
- Auto massage program download.
- Place 8 natural energy magnet in calf air bags.
**Standard functions**

1. **Negative oxygen ion function (button on left upper arm).**
   - Innovative negative oxygen ionizer design on head part, it can emit negative oxygen ion ceaselessly.
   - By the national infrared and industrial electric products quality supervision and inspection center verification, its negative oxygen ion concentrations up to 240 thousand /cm³, equal to forest or waterfall.
   - Negative oxygen ion can reduce PM 2.5 optimize room air.

2. **Magnet therapy function**
   - Place 8 natural energy magnet in calf air bags.
   - By the national infrared and industrial electric products quality supervision and inspection center verification, the surface of the magnetic intensity is 75mT, according with the best protection strength of national standard “40-110mT”.

3. **3D Digital Audio**
   - With 3D digital audio equipment on each side of the upper armrest, connect with cell phone music to play through, you can enjoy perfect fusion of music and massage when relaxing.

**NOTE:** This is for reference only.
Switch the main power supply on

To Start a Massage

- Press the red power button to start the massage, the massage chair will automatically recline down.
- Press certain auto massage button, the massage hands proceed auto detection of your shoulder and body scan, the calf rest roller begin to work at the same time (choose the auto program of “rapid massage” to start the massage program immediately, shoulder detection only to save half the time). If you made no choice of the auto massage program after 20 minutes, the massage chair will automatically switch off.
- Upon completion of scan, a beeping sound will begin emitting from the controller and the massage heads will gently roll on your shoulder region to demonstrate where the chair has sensed the position of your shoulders. During this period, if you would like to further adjust the detected shoulder region, you can do so by depressing the up or down shoulder position buttons seen below, it has 11 grades.
- If you have not made any adjustments to the shoulder position or selected a manual massage mode during the time after scanning, the chair will automatically start the “Fine” massage program for you.

**The disassemble and using of pillow pad and back cushion**

- Using head cushion can reduce knead massage strength for neck and shoulder, it all depends on you whether to use it (we suggest you using it). Head cushion and backrest are connection through a zipper (figure 1), upturn the back side of the head cushion, and put the AB flannelette inside of the head cushion insert the belt above the backrest (figure 2). Turn down the head cushion, put the back side lay on the backrest. It can adjust to a suitable position based on different size (figure 3).

**Floor Protection**

- Put the heavy massage chairs on the wood floor for a long time may damage the floor, so please place a carpet or other object to avoid this damage.

**NOTED**

Do not move the chair with its wheels on wood floor, rough ground or in a narrow space. Two people are required to lift the chair in this case, carry the calf front sealing plate and back cover (please don't lift the armrest).

Moving the chair

- Make sure all the wires are away from the floor, if you need to move, focus on the groove of the back cover, lift up to an angle (when the centre of gravity fall on the front caster), you can move the chair forward, then restore the chair to the normal angle.

⚠️ NOTED
Please must turn off the power switch, then unplug the power cord and remote control wire before moving the chair.

Product specification

Model: MEDICAL BREAKTHROUGH 6
Description: Massage Chair
Rated voltage: 110-120V ~ 60Hz
220-240V ~ 50Hz/60Hz
Rated power input: 240W
Rated time: 20 Min
Noise: ≤58db
Standby power: <0.5W
Safety Design: Class I

Material introduction: PVC, PA, steel parts and electric &ale-cron parts
